

# KANSAS

## Program Type: CHC, FQHC-Look-Alike, Migrant Health Program

HHS' Health Resources and Services Administration (HRSA) manages the Consolidated Health Center Program, which funds a national network of more than 3,600 clinics comprised of community health centers, migrant health centers, health care for the homeless centers and public housing primary care centers. These centers served about 12.4 million people in 2003.

Health centers deliver preventive and primary care to patients regardless of their ability to pay. Almost 40 percent of the patients treated at health centers have no insurance coverage, and others have inadequate coverage. Charges for health care services are set according to income.

**IMPORTANT:** Clinics vary in range of services provided. Please contact the main site or the clinic(s) in which you are interested to verify the type of services offered as well as location and hours of operation.
